TO WHOM IT MAY CONCERN

This serves to certify that **Mr.** was employed by the NSA as a National IT Field Technician supporting the 2025 Namibia Financial Inclusion Survey (NFIS), from the 8 September 2025 to 19 November 2025.

The duties of an IT Field Technician encompass the following:

- Advanced system troubleshooting and overlapping IT support.
- Installation and maintenance of hardware and software systems as required.
- Assist in reviewing system logs and dumps on recurring and related operating system failures.
- Training of field staff (Interviewers, Team Supervisors and Constituency supervisors).
- Assist in monitoring the data transmission process, system backup procedures, and executing recovery operations when necessary.
- Deployment of tablets and other ICT equipment for fieldwork.
- Ensure backup operations are effectively undertaken as per the backup plan.
- Verify data sent from the field.
- Setup network infrastructure at constituency and training venues.
- Implement data security initiatives as directed.

I highly recommend the staff mentioned above for any available opportunity, as they have proven to be valuable assets who continuously deliver quality work and uphold the highest standards of performance.

Yours Sincerely,

Dea-da Kandjii
